On-market share buy-back program to replace OFX dividend in the near term

- An on-market buy-back provides capital flexibility, which allows OFX to respond quickly to emerging growth opportunities
- Buying back shares at the prevailing share price will provide a near-term benefit to OFX shareholders, given the Board's confidence in the Group's ongoing strong performance
- Current dividend policy will be placed on hold to support an on-market share buy-back program of up to 10% of its ordinary shares over the next 12 months
- Number and frequency of shares to be acquired dependent on prevailing share price, market conditions, incremental capital requirements, and unforeseen circumstances
